

OSTEO-FX™

Formulated to support healthy bones and joints. Calcium is one of the most important nutrients your body needs. Unfortunately, many people believe that taking calcium-enriched antacid tablets or other related products will give them all the calcium they need. That is far from the truth. In order for calcium to be efficiently absorbed by your body, it needs other mineral co-factors. Majestic Earth® Osteo-fx™ was developed with this in mind. It is a highly absorbable product because it contains the co-factors necessary to help your body better absorb the calcium. You get more than 100% of your daily value from just one ounce of Majestic Earth® Osteo-fx™.
